Pull-out and swiveling mirror  
to be attached to the side of sliding and flush sliding door  
wardrobes

# Partitions

## Partitions fixed on the base

2.2. cm Th, they divide the wardrobe internal space. Marks for positioning adjustable shelves are positioned at a distance of 6.4 cm from sides and partitions. The type of wardrobe in which they are to be inserted must be specified. With the exception of the full height internal partitions, they must always be completed with a closing top shelf.

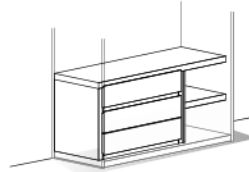

## T partitions for drawer units

They are needed to use a drawer unit that is smaller than the module. Made up of a 2.2 cm Th partition without marks for shelf support, a 4 cm Th top shelf and any possible 4 cm Th shelves for the side space. The T can accommodate drawer units shorter than the partition, creating a storage space (type A) or drawer units having the same height as the vertical partition itself (type B). In this case the shelf for drawer unit is not necessary, **therefore, please deduct the price of the finishing shelf for drawer unit from your calculation.**

## Standard drawer units characteristics

### Characteristics

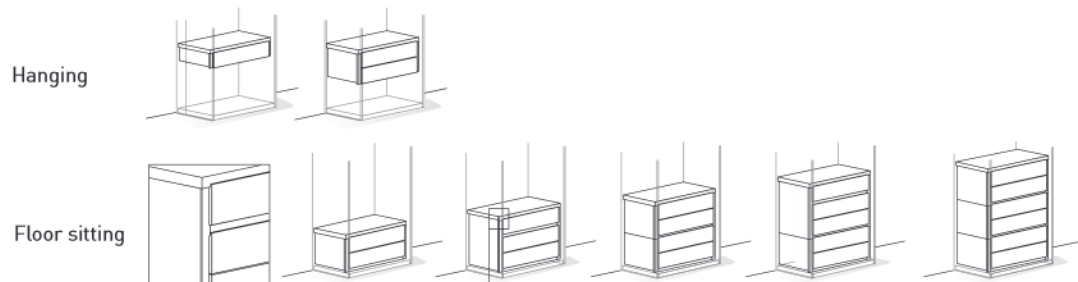

The structure and fronts are made of particle board panels coated and edged in synthetic finish. All drawers have an invisible guide with a galvanized metal structure, sliding rollers, automatic closing recall, anti-release stop, vertical adjust and soft closing. Guides are provided as a standard with partial extension; **upon request and with a surcharge**, guides with full extension can be supplied.

### Structure

Whole single, double or triple drawer units are available. By stacking the different elements you can obtain combinations of four, five or six drawers. The drawer units are already equipped with a 4 cm Th finishing top.

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia e Perlage Terra)
- Duna matt lacquered.

### Drawers

They have 1.8 cm Th fronts in particle board panel, 2 cm Th fronts with inserts in synthetic leather or 2.2 cm Th fronts with glass/mirror glued directly on the particle board panel without any frame. They have a groove for opening at the top and bottom ends of the pair of drawers. In case of one, three or five drawer units the groove is always placed on the top side of the drawer front.

**The difference in thickness of the fronts does not allow drawer units with mixed wooden/synthetic leather/glass/mirror fronts to be created. We also do not recommend combinations.**

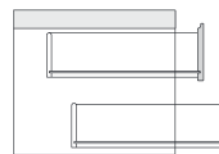

The drawer units, floor sitting or wall mounted, have H 18 cm fronts and H 14 cm drawer structure, or H 24,4 cm fronts and H 20 cm drawer structure for the floor sitting version. As standard, drawer frames made with particle board panels with a grey synthetic cover are installed.

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia e Perlage Terra)
- Duna matt lacquered
- Matt or glossy glass (Bianco, Piombo, Roccia and Seta as standard)
- Metallizzato glass and mirror (Argento, Bronzo and Piombo)
- Matt and glossy marble glass (Sahara, Calacatta, Amani)
- Synthetic leather (Bacca, Cactus, Creta, Elephant and Talpa).

## Metal drawer units characteristics and finishes

### Characteristics

The structure and fronts are made of particle board panels coated and edged in synthetic finish. All drawers have an invisible guide with a galvanized metal structure, sliding rollers, automatic closing recall, anti-release stop, vertical adjust and soft closing. Guides are provided as a standard with total extension.

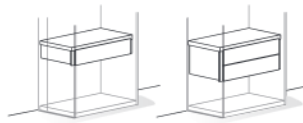

### Structure

Whole single, double or triple drawer units are available. By stacking the different elements you can obtain combinations of four, five or six drawers. The drawer units are already equipped with a 4 cm Th finishing top.

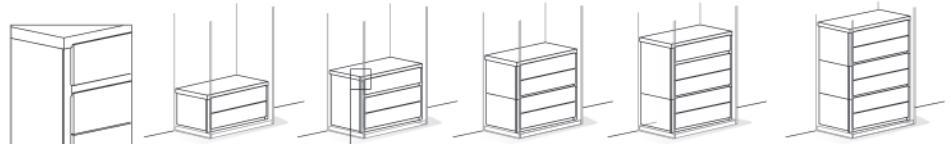

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia e Perlage Terra)
- Duna matt lacquered.

### Hanging

### Floor sitting

### Drawers with metal drawer frame

They have 1.8 cm Th fronts in particle board panel, 2 cm Th fronts with inserts in synthetic leather or 2.2 cm Th fronts with glass/mirror glued directly on the particle board panel without any frame. They have a groove for opening at the top and bottom ends of the pair of drawers. In case of one, three or five drawer units the groove is always placed on the top side of the drawer front.

**The difference in thickness of the fronts does not allow drawer units with mixed wooden/synthetic leather/glass/mirror fronts to be created. We also do not recommend combinations.** The drawer units, floor sitting or wall mounted, have H 18 cm fronts, or H 24,4 cm fronts for the floor sitting version. H 12,8 cm Canna di Fucile drawer frames are provided as standard, with the drawer bottom colour matching the drawer unit.

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia, Perlage Terra)
- Duna matt lacquered
- Matt or glossy glass (Bianco, Piombo, Roccia and Seta as standard)
- Metallizzato glass and mirror (Argento, Bronzo, Piombo)
- Matt and glossy marble glass (Sahara, Calacatta, Amani)
- Synthetic leather (Bacca, Cactus, Creta, Elephant, Talpa).

### Miro drawer units with metal drawer frame and glass front

They have H 18 Th 1,8 glass fronts and Canna di Fucile aluminium frame, which has a groove for opening at the top and bottom ends of the pair of drawers. The H 12,8 cm metal drawer frame is always in Canna di Fucile finish with drawer bottom colour-matching the drawer unit's structure.

#### Finishes:

- Transparent glass (Argento, Bronzo and Piombo)
- Riflettente glass (Argento, Bronzo and Piombo)
- Trama glass (Argento, Bronzo and Piombo)

### Personalisations

**Upon request**, the drawer bottom of each individual drawer with metal drawer frames, can be customised with a different colour than the standard one; Materico for drawer units with Materico structure and Duna matt lacquered for drawer units with structure in the same finish. **With a surcharge** the following finishes are also available: Duna matt lacquered, where not standard already, or Piombo transparent glass.

### Possible equipment options

**Upon request**, the bottom drawer of D 59 hanging drawer units, can be equipped with a H 5 cm metal frame painted Canna di Fucile, to be paired with one the following accessories: trouser rack, hampers or shoe rack. **Upon request and with a surcharge**, on the top drawer of each drawer unit it is possible to install an electronic lock, except for MIRO drawers (please see ELECTRONIC LOCK on internal drawer units)

### Possible solutions

The drawer units **are not free standing**. They can be floor sitting or hanging, suspended between two sides or partitions; with T-shaped elements or with internal partitions that create top spaces or at equal height.

**When placing the order, please always indicate in which module the internal drawer units will be inserted.**

## Characteristics of pull-out frames and accessories

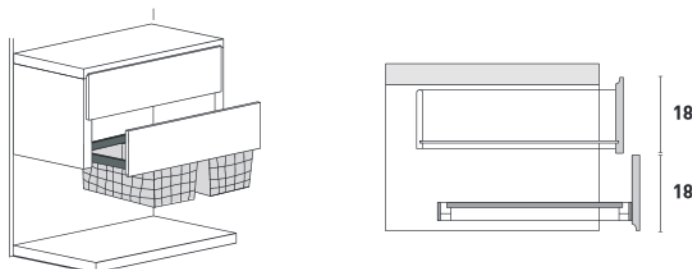

<b>Fronts and spacers</b>	Manufactured with mdf panels or particle board panels covered with synthetic veneer. <b>Finishes:</b> Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra) or Duna matt lacquered.
<b>Pull-out frames</b>	3-sided aluminium frame painted Canna di Fucile, they are equipped with invisible galvanised metal glides, sliding rollers, automatic closing recall, stoppers, total extension and soft closing. Both in the wardrobe version and the version for drawer interior, the frames can be equipped for one of the following accessories: trouser rack, hampers, shoe rack, tray with wooden bottom, tray with glass bottom.
<b>Hampers</b>	Made of quilted fabric and Canna di Fucile painted metal rods.
<b>Shoe racks</b>	In Canna di Fucile painted folded steel sheets
<b>Trouser rack</b>	Canna di fucile painted supports and aluminium rods
<b>Wooden tray</b>	Drawer bottom made of a particle board panel covered with synthetic veneer (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra) or Duna matt lacquered.
<b>Glass tray</b>	Transparent (Piombo) tempered glass Th. 0,6 cm
<b>Pull-out frame with accessories Solution for wardrobe structure</b>	The pull-out accessories are fixed to the wardrobe sides thanks to wooden spacers; they are equipped with a 7,9 H front

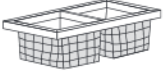

<b>Pull-out frame with tray Solution for wardrobe structure</b>	The pull-out accessories are fixed to the wardrobe sides thanks to wooden spacers; they are equipped with a 10.6 H front
---	--

<b>Pull-out frame with accessories Solution for drawer interiors</b>	The pull-out frames are fixed to the front of the drawer in replacement of the standard wooden drawer structure. In case of hanging drawer units, only the bottom front can be equipped with the pull-out frame, as per the below drawing. The version with tray is not available. To calculate the price, add the cost of the accessories for frame to the cost of the drawer unit.

ACCESSORIES

## Standard drawer units characteristics

### Characteristics

The structure and fronts are made of particle board panels coated and edged in synthetic finish. All drawers have an invisible guide with a galvanized metal structure, sliding rollers, automatic closing recall, anti-release stop, vertical adjust and soft closing. Guides are provided as a standard with partial extension; **upon request and with a surcharge**, guides with full extension can be supplied.

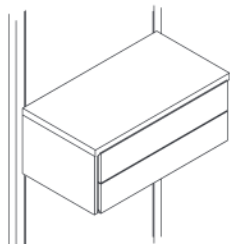

### Structure

One, two and four drawer modules are available. By stacking the modules you can build six drawer units (only under-shelf drawer units).

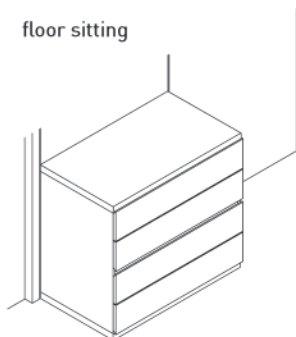

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra)
- Duna matt lacquered.

#### hanging

#### floor sitting

### Drawers

With 1.8 cm Th fronts in particle board, 2 cm Th fronts with inserts in synthetic leather or 2.2 cm Th fronts with glass/mirror glued directly on the particle board panel without any frame, there is a groove for opening that corresponds to the upper and lower edge of the pair of drawers. In case of a one drawer unit, the groove for opening is placed on the top side.

**The difference in thickness of the fronts does not allow drawer units with mixed wooden/synthetic leather/glass/mirror fronts to be created. We also do not recommend combinations.**

The drawer units, floor sitting, under shelf or hanging, include H 18 cm fronts with H 14 cm drawer structure. As a standard, drawer frames made of particle board panels with a grey synthetic veneer are installed.

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra)
- Duna matt lacquered
- Matt and glossy glass (Bianco, Piombo, Roccia and Seta as standard)
- Metallizzato glass and mirror (Argento, Bronzo and Piombo)
- Matt and glossy marble glass (Sahara, Calacatta, Amani)
- Synthetic leather (Bacca, Cactus, Creta, Elephant and Talpa).

#### Floor sitting or hanging

H 18

H 18

### Possible equipment options

**Upon request**, the bottom drawer of D 51 hanging drawer units, can be equipped with a H 5 cm metal frame painted Canna di Fucile, to be paired with one the following accessories: trouser rack, hampers or shoe rack.

**Upon request and with a surcharge**, on the top drawer of each drawer unit it is possible to install an electronic lock (please see ELECTRONIC LOCK on internal drawer units)

## Standard drawer units characteristics

### Possible solutions

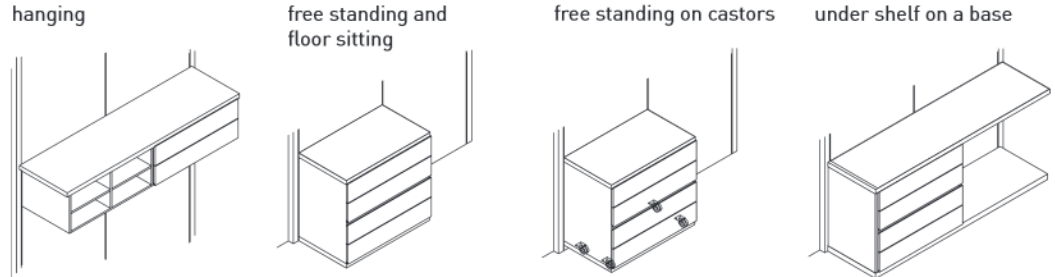

Drawer units can be hanging, under shelf or free standing.

They are composed of two structural sides with thickness 1.6 cm and are modular with the back panels. If used one next to another, a 0,8 cm gap is created.

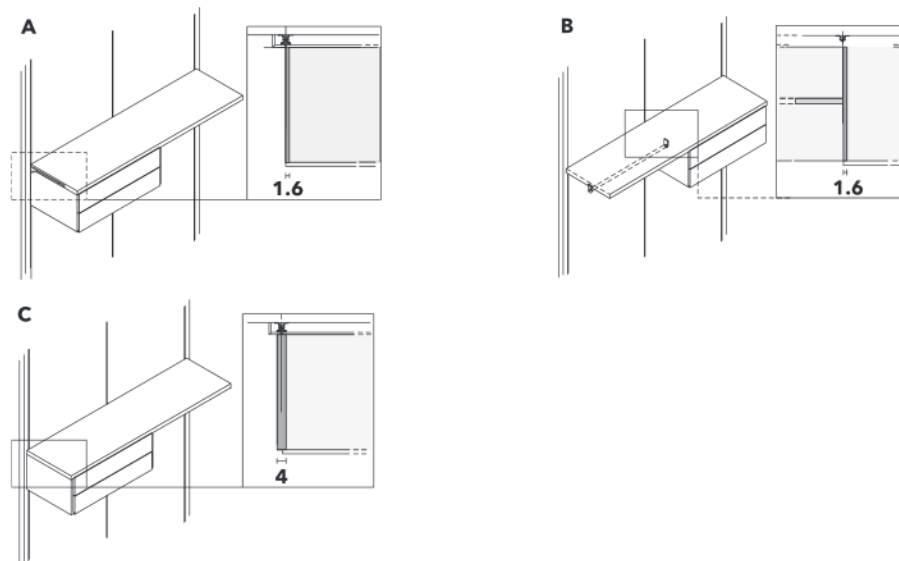

The hanging drawer units always come with a top finishing shelf. The under shelf ones are to be completed with an upper finishing shelf and a platform.

Free standing drawer units already include a finishing top and base.

Upon request and at a surcharge, free standing drawer units can be equipped with casters

Drawer units used with shelves with visible supports **(A)** or juxtaposed with any accessories such as shelves, cubbies and hanging rods **(B)** always need structural sides of thickness 1.6 cm flush with the front. On the other hand, drawer units used with hidden supports shelves and used in an ending position with respect to the shelf to which they are fastened need a side of thickness 4 cm as a replacement for the structural side. In this case, the drawer unit is positioned flush with the shelves' side edge and consequently the drawers fall within 2.4 cm with respect to the lateral edge of the side **(C)**.

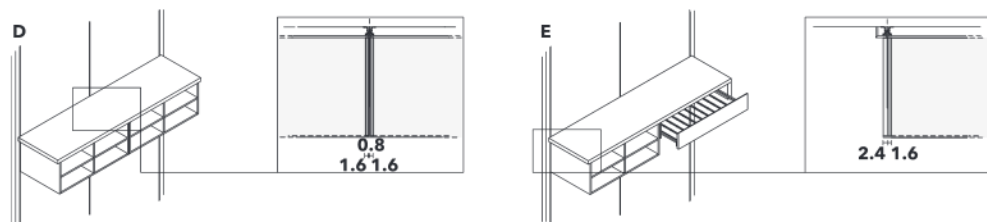

### Cubbies

Made of 1.6 Th particle board panels Eco veneered or lacquered with synthetic finish are always hanging and hooked to the shelves.

Finishes Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra) or Duna Matt Lacquered.

They are finished modules and modular with the back panels. When placed side by side a 0.8 cm space is left between the two units **(D)**.

When these elements are fixed to shelves with invisible brackets in a terminal position, they are recessed by 2.4 cm from the edge of the shelf **(E)**.

## Metal drawer units characteristics and finishes

### Characteristics

The structure and fronts are made of particle board panels coated and edged in synthetic finish. All drawers have an invisible guide with a galvanized metal structure, sliding rollers, automatic closing recall, anti-release stop, vertical adjust and soft closing. Guides are provided as a standard with total extension.

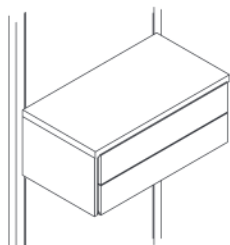

### Structure

One, two and four drawer modules are available. By stacking the modules you can build six drawer units (only under-shelf drawer units).

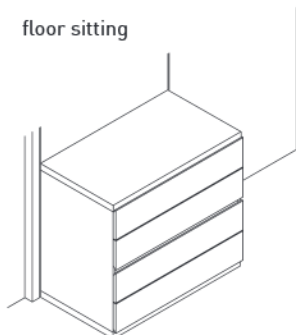

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra)
- Duna matt lacquered.

#### hanging

#### floor sitting

### Drawers with metal drawer frame

With 1.8 cm Th fronts in particle board, 2 cm Th fronts with inserts in synthetic leather or 2.2 cm Th fronts with glass/mirror glued directly on the particle board panel without any frame, there is a groove for opening that corresponds to the upper and lower edge of the pair of drawers. In case of a one drawer unit, the groove for opening is placed on the top side.

**The difference in thickness of the fronts does not allow drawer units with mixed wooden/synthetic leather/glass/mirror fronts to be created. We also do not recommend combinations.**

The drawer units, floor sitting, under shelf or hanging, include H 18 cm fronts.

In the metal drawer units, the whole drawer unit is composed of H 12,8 cm metal drawer frames in Canna di Fucile finish with standard total extraction and drawer bottom colour-matching the drawer units structure.

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra)
- Duna matt lacquered
- Matt and glossy glass (Bianco, Piombo, Roccia and Seta as standard)
- Metallizzato glass and mirror (Argento, Bronzo and Piombo)
- Matt and glossy marble glass (Sahara, Calacatta, Amani)
- Synthetic leather (Bacca, Cactus, Creta, Elephant and Talpa).

#### Floor sitting or hanging

##### Drawer fronts

H 18

H 18

### Miro drawer units with metal drawer frame and glass front

They have H 18 Th 1,8 glass fronts and Canna di Fucile aluminium frame, which has a groove for opening at the top and bottom ends of the pair of drawers. The H 12,8 cm metal drawer frame is always in Canna di Fucile finish with drawer bottom colour-matching the drawer unit's structure.

#### Finishes:

- Transparent glass (Argento, Bronzo and Piombo)
- Riflettente glass (Argento, Bronzo and Piombo)
- Trama glass (Argento, Bronzo and Piombo)

### Personalisations

**Upon request**, the drawer bottom of each individual drawer with metal drawer frames, can be customised with a different colour than the standard one; Materico for drawer units with Materico structure and Duna matt lacquered for drawer units with structure in the same finish. **With a surcharge** the following finishes are also available: Duna matt lacquered, where not standard already, or Piombo transparent glass.

### Possible equipment options

**Upon request**, the bottom drawer of D 51 hanging drawer units, can be equipped with a H 5 cm metal frame painted Canna di Fucile, to be paired with one the following accessories: trouser rack, hampers or shoe rack.

**Upon request and with a surcharge**, on the top drawer of each drawer unit it is possible to install an electronic lock, except for MIRO drawers (please see ELECTRONIC LOCK on internal drawer units)

## Metal drawer units characteristics and finishes

### Possible solutions

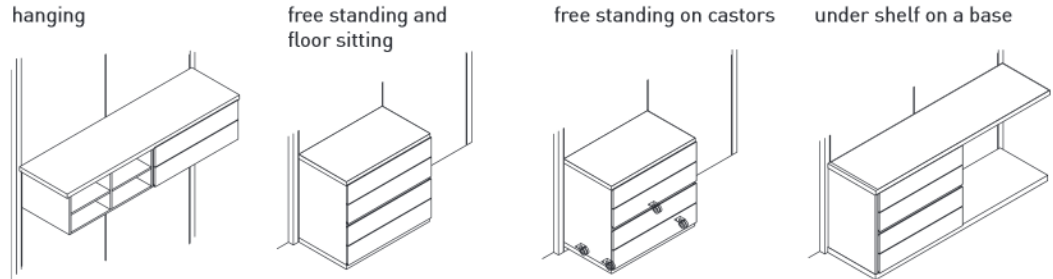

Drawer units can be hanging, under shelf or free standing.

They are composed of two structural sides with thickness 1.6 cm and are modular with the back panels. If used one next to another, a 0,8 cm gap is created.

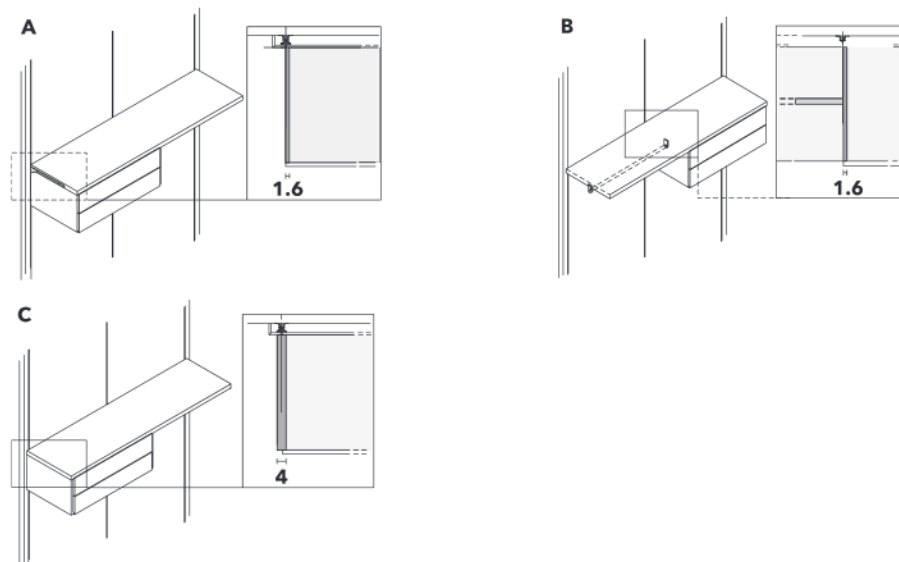

The hanging drawer units always come with a top finishing shelf. The under shelf ones are to be completed with an upper finishing shelf and a platform.

Free standing drawer units already include a finishing top and base.

Upon request and at a surcharge, free standing drawer units can be equipped with casters

Drawer units used with shelves with visible supports **(A)** or juxtaposed with any accessories such as shelves, cubbies and hanging rods **(B)** always need structural sides of thickness 1.6 cm flush with the front. On the other hand, drawer units used with hidden supports shelves and used in an ending position with respect to the shelf to which they are fastened need a side of thickness 4 cm as a replacement for the structural side. In this case, the drawer unit is positioned flush with the shelves' side edge and consequently the drawers fall within 2.4 cm with respect to the lateral edge of the side **(C)**.

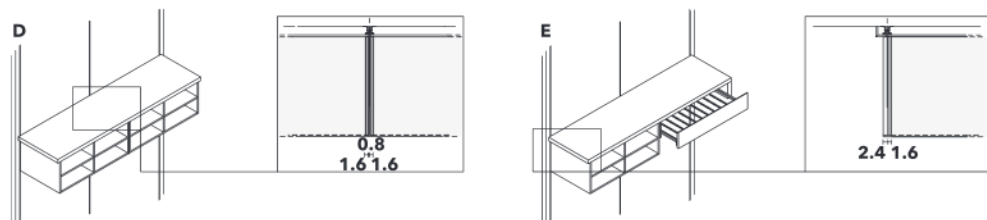

### Cubbies

Made of 1.6 Th particle board panels Eco veneered or lacquered with synthetic finish are always hanging and hooked to the shelves.

Finishes Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra) or Duna Matt Lacquered.

They are finished modules and modular with the back panels. When placed side by side a 0.8 cm space is left between the two units **(D)**.

When these elements are fixed to shelves with invisible brackets in a terminal position, they are recessed by 2.4 cm from the edge of the shelf **(E)**.

## Characteristics of pull-out frames and accessories

### Pull-out frames

3-sided aluminium frame painted Canna di Fucile, fixed directly to the drawer front instead of the standard drawer frame, they are equipped with invisible galvanised metal glides, sliding rollers, automatic closing recall, stoppers, total extension and soft closing. Both in the wardrobe version and the version for drawer interior, the frames can be equipped for one of the following accessories: trouser rack, hampers, shoe rack. In the event of drawer units with 2 or more drawers, the front that can be equipped with frame is the bottom one, as per the following drawing.

### Hampers

Made of quilted fabric and Canna di Fucile painted metal rods.

### Shoe racks

In Canna di Fucile painted folded steel sheets

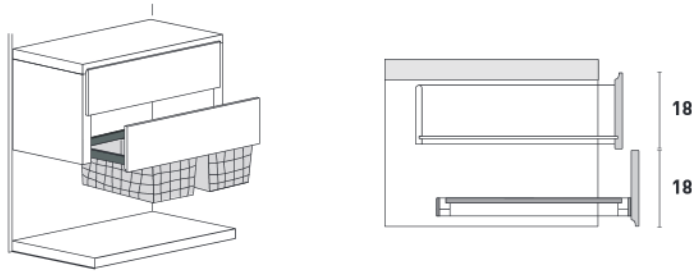

### Trouser rack

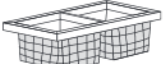

Canna di fucile painted supports and aluminium rods

### Pull-out frame with accessories Solution for drawer interiors

In case of hanging drawer units, only the bottom front can be equipped with the pull-out frame, as per the below drawing.

To calculate the price, add the cost of the accessories for frame to the cost of the drawer unit.

Frame with accessories	W	H	D	CODES	Accessories

ISLAND

## Characteristics

### Visible back panels, tops and sides

Made of 2.2 cm Th particle board panels with synthetic veneer cover and edges that are lacquered for the lacquered version. The sides have marks for internal shelves or shoe racks are positioned at a distance of 6.4 cm from each other.

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra)
- Matt lacquered (smooth).

### Drawer module

The structure and fronts are made of particle board panels coated and edged in synthetic finish. The base is equipped with adjustable feet. The 0,4 cm th internal back panel is made of mdf panels.

All drawers have an invisible guide with a galvanized metal structure, sliding rollers, automatic closing recall, anti-release stop, vertical adjust and soft closing.

The drawers have 1.8 cm Th wooden fronts or 2 cm Th Synthetic Leather inserts. A groove at the top and bottom of the drawer unit front performs the handle function. The drawer units include H 18 cm fronts with H 14 cm drawer structure and guides with partial extension as standard; **upon request and with a surcharge** guides with total extension can be installed. As standard, drawer frames made of particle board panels covered with a grey veneer are installed.

In the Island module with metal drawers there are H 12,8 cm metal drawer frames in Canna di Fucile finish with standard total extraction and drawer bottom colour-matching the drawer unit's structure.

**Upon request**, the drawer bottom of each individual drawer with metal drawer frames, can be customised with a different colour than the standard one; Materico for drawer units with Materico structure and Duna matt lacquered for drawer units with structure in the same finish. **With a surcharge** the following finishes are also available for the drawer bottom: Duna matt lacquered, where not standard already, or Piombo transparent glass.

#### Finishes:

- Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia, Perlage Terra),
- Matt lacquered
- Synthetic leather (Bacca, Cactus, Creta, Elephant, Talpa).

**Upon request and with a surcharge**, on the top drawer of each drawer unit it is possible to install an electronic lock (please see ELECTRONIC LOCK on internal drawer units)

### Shelf or shoe shelf module

The structure is made of particle board panels and is coated or edged with a synthetic veneer. The base is equipped with adjustable feet. The 0.8 cm internal back panel is made of engineered wood coated with synthetic veneer. The 4 Th shelves are made of LIGHT engineered wood panels with post formed eco veneer finish on three sides or edged in eco veneer, which can be lacquered. Furthermore, the shoe shelves are complemented with MDF strips with a eco veneer finish.

**Finishes** available Materico (Borgogna, Noce Dorato, Larice Tortora, Bon Ton, Perlage Conchiglia and Perlage Terra) or Matt Lacquered (smooth).

### Glass display case

Made with 1 cm Th Argento Transparent tempered glass with 90° jointing. The strips are not tempered. It is fixed to the top by means of aluminium supports.

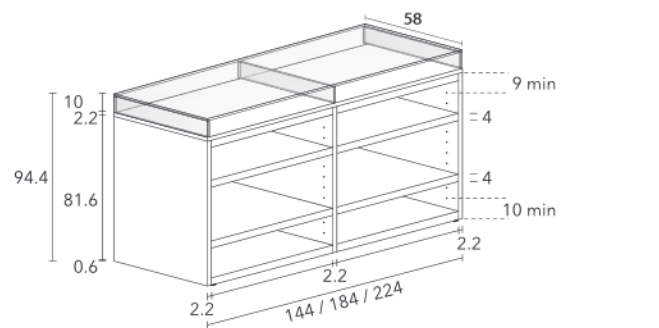

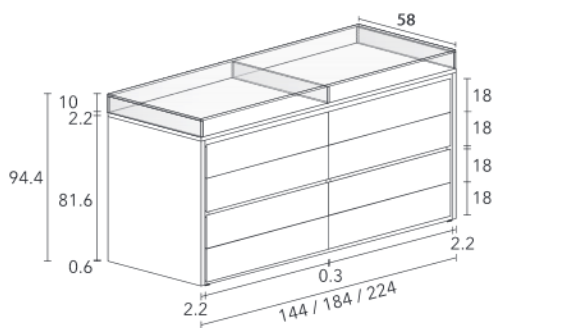

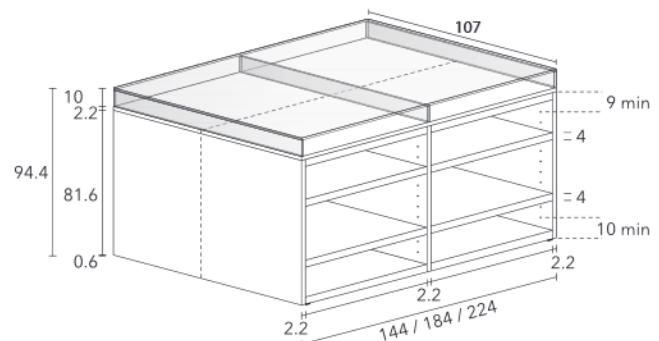

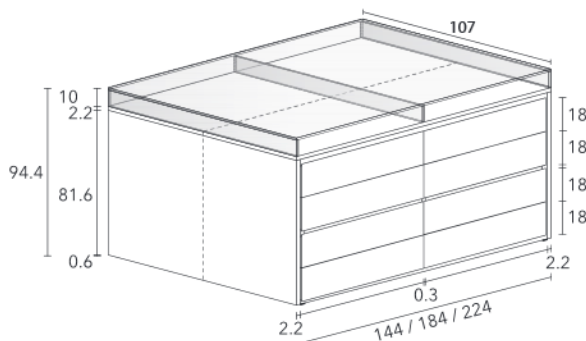

### Trays

Made with MDF panels covered in Synthetic Leather (Creta and Elephant).

### Specifications and price calculation instructions

In order to compose an Island module and calculate its price, it is necessary to add the price of the sides, the finishing top and any rear panel to the price of the front module.

Upon request, the Island can be supplied with a glass upper display case, with lined trays available in various configurations.
